The OSS is subject to the provisions of such license agreements, and in the event of any contradiction between the provisions of this Agreement and the provisions of such applicable license agreement, the provisions of the applicable open-source license agreement shall prevail solely for such open-source software products.

6. PATENT AND COPYRIGHT INDEMNITY

6.1. Subject to the limitations in Section 9, Worldsensing shall indemnify and defend the Licensee against any claims made by a third party that the Licensee's reproduction of the Software (which, for the purposes of this Section 6, means the Software as delivered by Worldsensing, excluding the open-source software programs described in Section 5.2) as permitted in this Agreement directly infringes such third party's patent or copyright, provided that the Licensee complies with the requirements of this Section. 6.3. Worldsensing shall have no liability or obligation under this Agreement to the extent the alleged infringement is based on: (i) a modification or derivative work of the Software developed by anyone other than Worldsensing; (ii), a combination of the Software with any product or service not provided by Worldsensing; (iii) the use of the Software in hardware not listed in an accepted Order Form; (iv) the use of the Software for other purposes as those set out in this Agreement or the product documentation; (v) indirect or willful infringement; or (vi) the misuse of any open-source code, as described in Section 5.2.

6.4. This section states Worldsensing's entire liability and the Licensee's exclusive remedy for any infringement related to the Software.

7. DEFAULT AND TERMINATION

7.1. An event of default shall be deemed to occur if: (i) the Licensee fails to perform any of its obligations under the Sections entitled "License Exclusions" or "Title and Protection"; (ii) the Licensee or the reseller fails or delays in making any payment when due, or in fulfilling any

payment conditions; or (iii) either party fails to perform any other material obligation under this Agreement and such failure remains uncured for more than thirty (30) days after receipt of written notice thereof.

7.2. If an event of default occurs, the non-defaulting party, in addition to any other rights available to it under the law, may terminate this Agreement and all licenses granted hereunder by written notice to the defaulting party.

7.3. Within thirty (30) days after termination of this Agreement, the Licensee shall certify in writing to WorldSensing that Licensee has ceased use of any and all Proprietary Materials and that all copies or embodiments thereof in any form, including partial copies within modified versions, have been destroyed.
